

Organizing your Internet Bookmarks with ikeepbookmarks.com

Accessing Your Account

Address: ikeepbookmarks.com/

Password:

Saving your Favorite Websites to your Account:

Use the **Popup** option that allows you to surf the Internet and bookmarks a site in the same way you would through the favorites button in Internet Explorer, except that bookmark will automatically be saved to your account. Using **Popup** is the best option.

Downloading the PopUp option:

1. You must first create an account and log in to your account.

2. Click on the **PopUp** menu at the top of the page.

Setup "Add to iKeepBookmarks.com" PopUp

Follow the instructions below.

This feature will let you add pages to iKeepBookmarks.com, in a popup dialog, while you are browsing the web.

You add the bookmark below to your favorites (or bookmarks) and then when you choose it, a dialog will pop up, for iKeepBookmarks.com, with the Title and URL information, for that page, already filled in. Then, simply, choose a folder to put it in, type in a description, and click save.

iKeepBookmarks.com will be updated without having to leave the page you are viewing!

Drag this --> [Add to iKeepBookmarks](#) <-- Drag this

Then, when you are visiting a web page and would like to save it in iKeepBookmarks.com, choose "Add to iKeepBookmarks.com" from your Bookmarks, or Favorites, Menu.

A window will pop up asking you to choose which folder you would like it to go in, and give you the option to type in a description, and change any information.

Note: You must be using Netscape 3 or above, or Internet Explorer 4 or above. You must also have JavaScript enabled.

To remove the iKeepBookmarks PopUp, simply right-click it in your browser's Favorites or Links and choose Delete

[Back to Your Account](#)

4. Right click on the text and select "Add to Favorites."

5. The **PopUp** option has now been placed in the **Favorites** section of your browser. You are now ready to use **PopUp** to save websites to your account.

Saving your Favorite Websites While Surfing the Web

1. When you find a website that you would like to save, click on the favorites icon in Internet Explorer.
2. When the favorites window opens, click on the **Add to ikeepbookmarks.com bookmark**.
3. The **PopUp** dialog box will appear and you will be prompted to enter your password.
4. After you have entered your password, this box will appear:

5. The Title and URL (web address) will automatically be entered. Choose the folder you want to save the website to by clicking on the down arrow next to the **Folder** box. If you do not select a folder your website will automatically be saved outside of all your folders.
6. If you would like to include a description, type it in the **Description** box.
7. When you are finished click on **Add this Link**.
